

Ricochet® Flexible Wall Protection

Disinfectants for Use Against SARS-CoV-2.

Ricochet® Flexible Wall Protection is not only durable, impact and abrasion resistant - it's chemical resistant and can withstand regular exposure to harsh, commonly used cleaning chemicals.

When tested for use with the EPA's approved list of SARS-CoV-2 (the virus that causes Coronavirus) disinfectants, Ricochet showed no change on the surface following exposure to the cleaning agents listed:

- Bleach (undiluted)
- Virex®
- Isopropyl Alcohol
- Fantastik®
- Lysol®
- Hydrogen Peroxide

Protect your walls from whatever comes their way with Ricochet®.
