

HPD UNIQUE IDENTIFIER: 26029

CLASSIFICATION: 10 21 23.13 Cubicle Curtains

PRODUCT DESCRIPTION: Shield by Panaz® fabrics are antimicrobial*, liquid repellent and highly resistant to most stains, making them ideal for cubicle curtains and shower curtains. Because they are easy to wipe down in place and don't require special detergents, Shield fabrics may help cut down on costs by reducing the need to take them down as frequently for routine laundering. * to inhibit the growth of mold and mildew

CONTENT IN DESCENDING ORDER OF QUANTITY

Summary of product contents and results from screening individual chemical substances against HPD Priority Hazard Lists and the GreenScreen for Safer Chemicals®. The HPD does not assess whether using or handling this product will expose individuals to its chemical substances or any health risk. Refer to Section 2 for further details.

Section 2: Content in Descending Order of Quantity

This section lists contents in a product based on specific threshold(s) and reports detailed health information including hazards. This HPD uses the inventory method indicated above, which is one of three possible methods:

- Basic Inventory method with Product-level threshold.
- Nested Material Inventory method with Product-level threshold
- Nested Material Inventory method with individual Material-level thresholds

Definitions and requirements for the three inventory methods and requirements for each data field can be found in the HPD Open Standard version 2.2, available on the HPDC website at: www.hpd-collaborative.org/hpd-2-2-standard

Section 3: Certifications and Compliance

This section lists applicable certification and standards compliance information for VOC emissions and VOC content. Other types of health or environmental performance testing or certifications completed for the product may be provided.

VOC EMISSIONS

CDPH Standard Method V1.2 (Section 01350/CHPS) - Classroom & Office scenario

CERTIFYING PARTY: Third Party

ISSUE DATE: 2021-08- EXPIRY DATE:

CERTIFIER OR LAB: UL

APPLICABLE FACILITIES: All

30

CERTIFICATE URL:

CERTIFICATION AND COMPLIANCE NOTES: CDPH Standard Method v1.2 VOC emissions testing is currently underway through UL Verifications Services Inc. Results and certification will be updated as soon as the results are released to Inpro.

Section 4: Accessories

This section lists related products or materials that the manufacturer requires or recommends for installation (such as adhesives or fasteners), maintenance, cleaning, or operations. For information relating to the contents of these related products, refer to their applicable Health Product Declarations, if available.

OPTITRAC WHITE

HPD URL: https://hpdrepository.hpd-collaborative.org/repository/HPDs/87_Optitrac_White.pdf

CONDITION WHEN RECOMMENDED OR REQUIRED AND/OR OTHER NOTES:

The track allows curtains to move freely and are engineered for optimal performance. Optitrac® Cubicle Track comes with a variety of track accessories and meets most common track specifications. Optitrac® comes with multiple carrier options including pop-out carriers and has a removable end cap for easy carrier replacement. Optitrac® is IV compatible

OPTITRAC BALL & CHAIN CUBICLE CURTAIN CARRIER

HPD URL: No HPD Available

CONDITION WHEN RECOMMENDED OR REQUIRED AND/OR OTHER NOTES:

Use Ball & Chain Carriers to connect curtains to your cubicle track and provide quiet, effortless movement. This carrier is compatible with Optitrac® Cubicle Curtain Track Systems. The chain and hook are both rust-resistant

OPTITRAC REMOVABLE END CAP

HPD URL: No HPD Available

CONDITION WHEN RECOMMENDED OR REQUIRED AND/OR OTHER NOTES:

Removable End Caps secure curtains in place and the removable design makes carrier replacement easier by eliminating the need to remove the entire track

OPTITRAC METAL END CAP

HPD URL: No HPD Available

CONDITION WHEN RECOMMENDED OR REQUIRED AND/OR OTHER NOTES:

Ensure your cubicle curtains remain secured to the track by adding stops to each end with Metal End Caps. The simple "L" shape of the end cap easily screws through the top of the track

Section 5: General Notes

Shield fabrics may be wiped clean versus laundered due to repellency and stain resistance – saving you time and costs associated with laundering. Unlike other fabrics, Shield by Panaz® does not require special detergents to maintain its antimicrobial properties – and the dry time is 3-5 minutes, much less than a typical fabric. With Shield by Panaz®, you get high performance fabrics with high quality design

The Health Product Declaration (HPD) Open Standard provides for the disclosure of product contents and potential associated human and environmental health hazards. Hazard associations are based on the HPD Priority Hazard Lists, the GreenScreen List Translator™, and when available, full GreenScreen® assessments. The HPD Open Standard v2.1 is not:

- a method for the assessment of exposure or risk associated with product handling or use,
- a method for assessing potential health impacts of: (i) substances used or created during the manufacturing process or (ii) substances created after the product is delivered for end use.

Information about life cycle, exposure and/or risk assessments performed on the product may be reported by the manufacturer in appropriate Notes sections, and/or, where applicable, in the Certifications section.

The HPD Open Standard was created and is supported by the Health Product Declaration Collaborative (the HPD Collaborative), a customer-led organization composed of stakeholders throughout the building industry that is committed to the continuous improvement of building products through transparency, openness, and innovation throughout the product supply chain.

The product manufacturer and any applicable independent verifier are solely responsible for the accuracy of statements and claims made in this HPD and for compliance with the HPD standard noted.
